MESA CREEK

PROPERTY SERVICES

CAPABILITY STATEMENT | WESTERN COLORADO

COMPANY OVERVIEW

Mesa Creek Property Services provides property maintenance, fire mitigation, Hardscape & Landscaping, and property and home improvements throughout Western Colorado. Owner Steven Flynn brings at least 19 years of consulting experience on large oil and gas completion and construction projects.

CORE CAPABILITIES

Property Maintenance

Grounds care, seasonal cleanup, irrigation maintenance and repairs, and ongoing property upkeep.

Hardscape & Landscaping

Steel edging, rock work, landscape installation, landscape renovation, and property site improvements.

Fire Mitigation & Defensible Space

Brush clearing, vegetation management, fence-line clearing, and property fuel reduction.

Property & Home Improvements

Exterior repairs, siding, painting, site upgrades, and general property improvements.

RELEVANT EXPERIENCE

FAA Light-Station Cleanup | Montrose

Cleanup of a failed light station washed into a waterway, including removal of concrete foundation debris and loading recovered material for haul-away.

FAA Vegetation Mitigation

Wildfire and vegetation mitigation work requested by an FAA area manager and purchased using an agency purchase card.

HOA Grounds & Irrigation

Grounds maintenance, irrigation pump installation and removal, and trenching projects.

Property Improvements

Steel edging, landscape renovation, brush removal near Aspen, and exterior improvements.

WHY MESA CREEK

Direct owner involvement and communication. Broad property service capabilities through one business. Experience with federal agency and HOA projects. A local Western Colorado service focus.
